

Team Consortium Network Meeting
Tuesday 21st October 2014
Bell St
Glasgow

Introduction

Team Consortium is a task force for the good of the whole community. Comprised of individuals who are giving their time, energy and skills to shared actions that help build recovery from addiction in Scotland. The SRC hosted a gathering of Team Consortium members to launch the task force and gather their ideas and feedback about how we should develop.

The Event

18 of the 60+ Team Consortium members attended this launch gathering. They came from all over Scotland including Aberdeenshire, Falkirk, Edinburgh, Inverclyde, Glasgow, Angus and Ayrshire.

The event opened with a community circle and then moved into café style after a short seed from Kuladharini about the role of Team Consortium as the social change agent wing of the SRC's work. Questions considered were:

- What do you think Team Consortium could be?
- How can we build existing campaigns better?
- Create another workable idea for Team Consortium

We agreed that membership of Team Consortium is:

- by personal invitation only to Recovery Activists who have something that our social change campaigns need.
- a commitment for one year - although individuals can choose to leave the list at anytime or sign up again for another year every April.
- entirely voluntary, with a monthly update on opportunities for action on for individuals to choose to join in with or not.

Winter Campaigns for 2014/15:

- ORT Recovery meetings
- MSP recovery attitudes and awareness campaign
- Recovery Walk 2015
- Lived experience for the Recovery Matters workshop.

We concluded the session with another community circle and a commitment to meet again.

October 29th 2014
Kuladharini.
